Sufiyan Goundi	[339CS20031]

- Weekly status report: week-1

Date	Risk or Issue	Description	Resolution	Status
	Time scheduling	Time risk, also known as project schedule risk, is the risk that tasks in your project will take longer than expected. Delayed timelines might impact other things like your budget, delivery date. or overall performance.	Set realistic goals for your projects. Hold a team meeting. Gather the right resources. Schedule carefully.	Done
	Cost estimation	It can arise from poor budget planning and inaccurate cost estimation. Cost risk is the risk of exceeding the budget for project or failing to deliver fair value to offset costs.	Pay attention to the areas where costs may increase Include contingencies in your budget. Project Outline the work breakdown structure (WBS).	Done
	Resources	Resource risk occurs if you don't have enough resources to complete the project. Resources may include time, skills, money, or tools.	Identify the types of resources. Identify available resources. Have meetings of your team on weekly bases.	Done
