ACKNOWLEDGEMENT

I want to thank my mentor, Mrs. Akshata.Badiger, Mr. Sanju Kapali Head of Department of Computer Science and Engineering, from the bottom of my heart for starting an exciting study, for his personal dedication, for engaging discussions, and for her insightful advice. He has consistently supported me throughout the job and provided insightful direction and oversight.

I want to extend my heartfelt gratitude to Prof. Darshan Kumar Billur, Principal of the K.L.E Society's C. B. Kore Polytechnic, and HOD Mr. Sanju Kapali, Associate Professor Department of Computer Science and Engineering, for your insightful ideas.

I would also want to express my gratitude to the entire Department of Computer Science and Engineering team for their kind cooperation in helping us to successfully finish the seminar. I want to thank all of my friends and classmates for your unwavering assistance and encouragement during the seminar.

I want to use this occasion to thank each and every one of my group members. Without their assistance and contributions, the project would not have been accomplished.

Without acknowledging my adored parents, whose blessings and affection have helped me get to where I am today, the acknowledgements would not be complete. I appreciate the support from each and every member of our family.

DARSHAN GAHTGE

EXECUTIVE SUMMARY

Purchasing medicine online has been growing increasingly in the healthcare industry. This executive summary provides an overview of a web-based solution that utilizes PHP, MySQL, JavaScript, HTML, CSS, and Bootstrap that implement ordering of products online through website. These technologies enable the development of an intuitive and interactive platform for users to assess, to buy medicines and find suitable healthcare.

Key Features and Functionality:

The E-commerce Online Medicine Shopping system is developed using PHP, MySQL, JavaScript, HTML, CSS, and Bootstrap encompasses the following key features:

Admin login: The system allows the administrator to create new categories, add products, and manage them accordingly. The administrator can view the orders placed by the users (customers) and make offers to them.

User Login: The user registers and receives a username and password for easy access. Here the user can view products, order products and receive quotes on the orders.

Interactive User Interface: The web-based platform features a user-friendly interface implemented using HTML, CSS, and Bootstrap. It offers an intuitive design, seamless navigation, and responsive layouts for optimal user experience across different devices.

Secure Data Management: The system employs MySQL as a database management system to store user data securely. It incorporates robust authentication and encryption mechanisms to protect sensitive information.

Benefits:

Users can order medications at any time.

Information is private and confidential.

Convenient.

Easy to use, update and maintain.

Time-saving.
